Welcome to the NYLI Seamless Catalog!

Thank you for choosing to integrate NYLI's collection into your OPAC using our Seamless Catalog Module/EOS Cloud Search! We're here to help you if you have any questions about the process.

The NYLI Seamless Catalog Module enables you to browse our print materials and access our eBooks 24/7. If you've also chosen to install the ILL module, you and your patrons can order and track loans of print materials from NYLI. Your attorneys and library staff can now search your OPAC and return a real time availability stream for all item records in both yours and NYLI's catalogs. NYLI will appear as a branch location within your system (as in the screenshot below).

Duplication of bibliographic records can be avoided by suppressing NYLI's records when your library has a record. Upon selection of a print item, an automated (ILL) request is immediately submitted to NYLI. Your library will also receive a notification for that request for tracking purposes. And we will call the library to determine how you'd like the title delivered and to whom. The material(s) are delivered the same day (usually within hours). You can run reports and view items borrowed from NYLI via this

process within the EOS ILL interface. Our eBooks are instantly accessible through the link in the item record.

To help you get started I've attached a packet of materials which will be helpful to you when setting up your EOS configuration. Please let us know if you have any additional questions. Thank you!

Just in Case…the New York Law Institute is there…Just in Time
